Mexico City, Feb. 2—President Fran-cisco Madero, with his ministers and a strong detachment of loyal troops, is fortified in the national palace tonight

Many Spectators Killed.

Many fell in this approximent and while General Felix Diaz with a large majority of the regulars behind him has practical control in the capital.

Many fell in this engagement and among the scores of bodies which strewed the streets were those of mi-In several bloody encounters today the president and his supporters succeeded in defending themselves great crowds of spectators which had against the rebels, and notwithstandnumbers are in a state of revolt which carried all before them today, there was an appearance of genuine optimism at the palace among Madero and his ministers.

Madero Says Revolt is Suppressed.

Madero Says Revolt Is Suppressed. To all parts of the republic Madero telegraphed reassuring news which he and his cabinet seemed to believe. The state governors and military com-manders were assured of the loyalty of the army and that tranquility had

To a representative of the Associated Press President Madaro said the facil-ity with which the new revolt had seen suppressed was only another in-lication of the strength of the govern-ment and the loyalty of the army. Pointing from a window in the palace to a mob. for the most part of boys carrying the national flag and crying vivas for Madero, the president said:

"Will Use the Iron Hand."

"There you can see the people are the animal from the line. Madero protested vigorously and continued to lead the advance until the shooting began, when General Huerta succeeded in persuading him to enter a building in a side street. This building by a coincidence, was the same in which General Reyes took refuge during his campaign for the presidency 18 months ago against a mob of Madero supporters, who attempted to stone him. There you can see the people are with us. It is said that the government stands alone but that is not true. The government has the support of the people. There will be no more temporizing, we're going to use Early in the day shortly after the first outbreak occurred Madero declared martial law throughout the city and announced that he would ask congress to authorize a supromise to guarantees throughout the republic. General Huerta was named as post commander on account of the wound-ing of General Villar.

In the belief that the government had scored an easy victory Foreign Minister Lascurain, Ernesto Madero and others of the cabinet embraced one another and congratulated them-

selves and the president on what they called the new turn of events.

Those who have observed affairs closely point out that General Diaz, who escaped being shot summarily following the failure of the Vera Cruz royolt can now expect no elements. straining every fibre to depose Ma-

dero, and with the large forces at his command, both within the city and outside, it is not likely that the present revolt and the rising within the copits, will be suppressed easily. Madero and Cabinet Besieged.

The army rose in revolt in Mexico City today, took possession of the public buildings, shot down Federal adherents in the streets, released General Felix Diaz, the leader of the Vera Cruz revolt, from prison and, failling into line under his banner, practically captured the Mexican control tured the Mexican capital,
Francisco Madero, president of the
republic, and the members of his cabinet took refuge in the national palace, where they were besieged, but with some loyal troops at their back, suc-

power.

General Diaz, who is the nephew of the edeposed president, Porforly Diaz, now at the head of a majority of the capital troops, including most of the artillery, and is in possession of the artillery, and is in possession of the artillery and the city and the powder the arsenal.

Thirty minutes are began in the neighborhood, but lasted only a short time. Neither side appeared ready to press its advantage, but just before noon General Diaz led his command, numbering one thousand, on a wide detour, in an effort to reach the arsenal.

Madero Relying on 1,000 Men. Madero is relying on the loyalty of General Bianquet, who has been sum-moned from Toluca, forty miles distant

but Blanquet has only a thousand men under his command, and the rebels are confident of defeating him, should he refuse to join in the movement of revolt.

The day was marked by four separate engagements, the most sanguinary of which took place in front of the na-

nal palace, but most important was t which terminated in the formal ants, were executed in the patio of the national palace. It is officially reported that this was by order of the surrender of the troops in the artillery government, but another story is that they were killed by a detachment of their own men because they opposed their joining in the revoit. Added to this is the report that these mutinous troops were overpowered and dis-armed.

Gen. Reyes Among Killed. It is believed that not less than two hundred persons were killed in the fighting. Among the number were General Bernardo Reyes, a strong ad-herent of Porforio Diaz and an ex-

herent of Porforio Diaz and an ex-secretary of war.

The mutinous troops were led by the students of the military school at Tialpam, a suburb. They marched to the prison to which General Felix Diaz had been transferred for safe keeping and released him. General Bernardo Reyes was also freed from Santiago military prison there being no resistarmed. prison, there being no resist

ognizable mass. OLD STATE MANUALS

TELL UNIQUE STORY Middletown Was Third City In Con necticut a Century Ago.

Judge John H. Kirkham of New Britain has recently come into possession of a valuable set of books, twenty-three copies of the "Connecticut Register and Manual" for years from 1804 to 1840. The little paper-covered volumes were the forerunners of the compiete and comprehensive manual now published annually by the state for free distribution.

Nothing more interesting to one whose mind is of a historical bent can be imagined than a few hours for in-Judge John H. Kirkham of Nev

be imagined than a few hours for in spection of these little volumes. Each thick and the pages are about four and a half by seven inches in size. They were printed in New London and sold throughout the State.

At the first call to arms President Madero took command of a force of Changes of a Century. At this time, on the eve of the opening of Connecticut's legislature for the session of 1913, an inspection of the 1813-1814 volume is most interesting. The changes of a century in Connecticut are not realied until are takes some concrete form of comapproximately one thousand men, consisting of mounted police, Chapul-typec cadets, and a small detachment of volunteers. He appeared at the of volunteers. He appeared at the head of this force a mile from the national palace, riding a big gray horse. By his side rode General Huerta, hero of the campaign against General Orozco, and one of the army generals who the public had suspected of being disjoyal one takes some concrete form of comparison such as this as a basis for thought.

As is still the rule, the manual's first pages are given over to an almanac. Then tables for the com-putation of interest, are given. By Several blocks from the palace one of Madero's aides attempted to dissuade the president and, placing his hand on the horse's bridle, haif turned the animal from the line. Madero Chauncey Goodrich, lieutenant governor of Connecticut, senor; Andrew Kingsbury, treasurer; Thomas Day, secretary: Elisha Coit, controller, and James Hillhouse, com-missioner of the school fund.

To Prepare Address for People. A few pages of the old register are devoted to the Medical society of Connecticut. A report of a recent meeting of the organization tells of

the state on "The III Effects of a Free Use of Ardent Spirits." New Haven Was Biggest Town. was such as to stupify the populace, the lower elements apparently not knowing for whom to cheer. This nowing for whom to cheer. This spopularly given as the reason for he lack of pillaging and looting.

The attack on the national palace town was third in population and found the government not altogether

Allies Moving Against Bulair

IETY IN TURKEY.

Servian Troops Arrive and Greek Fleet Puts in Appearance-Turks Repulsed and Driven to Bulair Forts.

London, Feb. 9.—Some light is be-finning to be shed by the brief official desputches, which contain almost all he available news upon the military actics in the Balkan campaign.

Turks Attempt to Land Troops. The reports of attempts on the part of Turks to land troops along the coast of the Black Sea and the Sea of Marmora, which heretoere were learned only from unofficial courses, are now efficially admitted, and it looks as efficially admitted, and it looks as h Eaver Bey's mysterious and des-te move, of which there have been some rumors, was an attempt to effect a landing at Charkeul, about 35 miles to the southeast of Rodosto, with the intention to relieve the pressure of the Bulgarian attack on the Bulair lines.

Attack Causing Turkish Anxiety. This movement of the Bulgarians, according to an uncensored despatch from Constantinople, is causing serious anxiety at the Turkish war office. It is now known that the allies are advanc-ing in strength against Bulair, and the Constantinople despatch adds that the Greek fleet has appeared in the Gulf of Saros, where Servian trooops are also reported to have been landed to lend assistance to the Bulgarians.

Statement tonight goes into greater detail, however, and declares that competition will supplient monopoly under the agreed scheme of separation. He gives it his unqualified approval.

Tchatalja Lines Abandoned. It now seems clear that the allies have abandoned the attempt to force the Tchatalja lines in favor of an attempt to capture Gallipoll peninsular, so as to open the way by sea to Constantinople.

Bulgarians Move Lines West According to Turkish reports, Turkish reconnaissances have reached Tcherkesskeul and Tchorlu, which would indicate that the Bulgarians, who a few days ago were reported to have moved their headquarters to

eral hours, and finally the Bulgarians repulsed the Turks, pursuing them to the Bulair forts. Many wounded were left on the Said. left on the field. STATE GEOLOGICAL AND

NATURAL HISTORY SURVEY. Issued-Plans For Future.

geological and natural history survey of Connecticut, of which President Flavel S. Luther, of Trinity college,

work has been undertaken excepting an investigation of the water re-sources of the state, carried on in cooperation with the United States geological survey. It seemed desir-able for many reasons to enter upon that investigation at the present time, The United States reological survey was ready to co-operate in such investigation appropriating from the United States treasury an amount equal to that which was appropriated from the state trensury. In the two years ending June 39, 1913, four thousand dollars (\$4,000) will have been expended on that work; two thousand dollars from the state of Connecticut, and two thousand dol-lars from the United States. It has cute that investigation at present, since, in recent years most of the large towns in Connecticut have been threatened with water famine. The necessary consumption of water for domestic and manufacturing purposes is rapidly increasing. The available supply of coal tends to exhaustion, and the diminished. supply of coal tends to exhaustion, and the diminished supply must mean in the near future a considerable increase in cost. It is evident, then, that in the near future our manufacturing indus-tries must be forced to depend more tries must be forced to depend more largely upon water power. It is believed, also, that irrigation is destined to play a large part in the future development of the agriculture of the state of Connecticut. The average rainfall in Connecticut is, indeed, sufficient for agricultural use; but our farmers often suffer heavy losses from occasional drouth, and these losses might be averted by judicious provision might be averted by judicious prevision for irrigation."

In referring to the plans of the dissioners for the next two years the report says: "We accordingly earnestly petition the general assembly to appropriate, for the ensuing blennial term, \$1,000 for administrative and miscellaneous for administrative and miscellaneous expenses, and \$3,500 or such part of that sum as the United States geological survey may be able to duplicate, for co-operative work in the investigation of water resources.

"In accordance with this plan, it is proposed that no new work on the general lines of geology, hotany or zoology be commenced during the ensuing blennial term. Work which has

ology be commenced during the ensuing blennial term. Work which has been commenced will be pushed forward towards completion as rapidly as possible, and bulletins which have been or which may be completed will be published as speedily as practicable. The appropriation of \$1,000 for administrative and miscellaneous expenses will pay the salary of the superintendent, and necessary traveling and incidental expenses: and will also allow, in some cases in which it may be necessary, small additional payments for work which has been undertaken, for which the allotment originally made proves to be inadequate."

have been called for as a result of the recent semi-annual mental examinations at the naval academy in which that number failed.
